Expand your Construction Management Career with the Building Information (BIM) Modeling Certificate

Evergreen Valley College's new BIM certificate program is designed to provide you with the necessary skills to compete for a growing number of jobs in the field of Virtual Design and Construction. If you are already working in the Construction field or have an interest in finding out how you can enter this new occupation, take time to sign up for this new and exciting certificate program that begins in the Fall.

Successful graduates will:

- Learn about how to successfully manage and execute construction projects
- Learn how to implement various collaboration methods for job completion
- Gain knowledge of how to use the most cutting edge architectural and autodesk software
- Learn best practices for getting complex tasks and jobs completed on time
- Acquire the technical skills and knowledge about how to advance up the career ladder

For more details contact Marjorie Rico at **408-270-6434**.
Go to www.evc.edu for application and enrollment information.

According to the current salary projections, BIM specialists can earn between $50,000 to $ 65,000 a year. With the addition of a benefits package, the average BIM specialist will receive nearly $ 90,000 a year in total compensation. The high demand for BIM specialists will ensure that EVC graduates are able to secure excellent, high paying jobs in the Bay Area Construction Industry.
